

# NORTH BONDI RSL

Dear Fellow Members,

Happy Friday to you all and I trust that this note finds you in good health and spirit.

I know that many of you want to see consistency, harmony and strong focus for our Club as we move forward with the Sub Branch in the next few years. Let me reassure you of a few key points that will underpin my earlier messages this week and reaffirm our commitment to the North Bondi community and to all of you that come into the Club during the year:

1. We have a strong Board ready to navigate the challenges ahead and capably ensure the long term prosperity of the Club
2. Member interests and the integration with our aims that I mentioned earlier this week will ensure your voice is heard and that we lead and manage the affairs of our Club appropriately on your behalf
3. The diversity of the Club demands representation that can properly guide affairs at both the strategic and operational level and we have planned for that by adding three highly capable women to sit on the Board.

Our future, in lock step with the Sub Branch, will ensure:

1. We plan to allocate financial resources to look after the total site for the next two to three decades – a formal agreement has been set in place.
2. We work closely to make sure that the events and activities meet the Objects of our Constitution – a social hub with an RSL identity.
3. We keep key staff for day to day leadership continuity and a great floor team that happily serve you – people we know that make a difference.
4. We have generations that will embrace our future because they are secure knowing that North Bondi RSL will always be there – the beach icon you know so well.

The final voting reminder – our AGM is on this Saturday 25 July between 10am and 6pm – you must have been financial on or before 23 June to have your say.

The Club stands ready, as ever, to provide the first class service and venue you deserve as a Member. Our identity, brand and service you enjoy are almost exclusively through the frontline of our staff from the moment you walk in the door. They are part of the fabric that simply make the Club work! Long may it continue and see you at the Rathouse.

Stay safe.

**Martyn Bell**

Club President
